ENGINEERS REGISTRATION BOARD

ENGINEERS JOURNAL

1ST SEPTEMBER 2018

CALL FOR ARTICLES

The Engineers Registration Board (ERB) is established under the Engineers Registration Act, Cap 271, 1969 as a Statutory body with the mandate to regulate and control Engineers and their professional practice in Uganda, and to continuously look into and improve policies affecting the engineering profession and advise Government accordingly.

As part of our mandate, we are in the process of producing “The Engineer” 2018 Issue, a journal that provides easily accessible, simplified and correct engineering information at all times to practitioners and stakeholders. The Journal will focus on the engineer’s role in sustainable socio-economic, environmental & technological development of Uganda.

The Editorial Committee of the “Engineers Journal” therefore invites articles of engineering nature. Papers should be news worthy to communicate, educate, and or entertain readers, mainly engineers, allied professionals, policy makers, students, financiers, project promoters, regulators, corporate leaders and others with strong interest to the profession. All papers will be carefully reviewed and evaluated on the strength of the content matter submitted including relevance of the topic to the target Audience at the forum. Scientific research and practical papers covering engineering disciplines of Civil, Electrical, Agricultural, Mechanical, Telecommunications, Petroleum, Chemical and medical Engineering are encouraged.

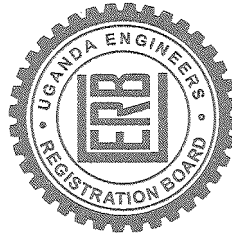

The deadline for submission of papers is 30th September 2018. The detailed Author Guidelines and acceptable format (template) are herewith attached.

Editable articles, in the acceptable format should be submitted to admin@erb.go.ug and h.mwesigwa@8mconstruction.com. Confirmation of receipt shall be given by reply email within 48hours. Any requests for clarification and/or enquiries should be directed to the same addresses and via telephone contacts on +256772590810 / +256772431465

We look forward to your continued support and collaboration.
